

Says

What have we heard them say?
What can we imagine them saying?

To build a app
which is more
informative
and does not
lack

In the existing
system the
"HOME" circle
is difficult to
find

Beginners may
find that the
material design
specification is
complicated and
harder

It promotes
animation in
designs by user
feedback and to
hint at how different
features work

Provides more
information
and ideas to
implement in
business

Does

What behavior have we observed?
What can we imagine them doing?

To learn
many new
things

It uses bold
color, shape,
and to express
every
attributes

It is an
educational
app that uses
material design
components

To create
more designs
and templates
which are
useful

Thinks

What are their wants, needs, hopes,
and dreams? What other thoughts
might influence their behavior?

There are
material
design
themes

There are
various topics
to choose
what to design
in

Material design and
documentaion for how
to use and
implemwnt is lacking
for many modern
design system

To build a
user friendly
environment

Feels

What are their fears, frustrations, and
anxieties? What other feelings might
influence their behavior?
